

## Homework #0

Due –

Be sure to show all your work for credit.

1. See Serge Belongie's CSE252B: Computer Vision II at UCSD for a basic Matlab tutorial  
<http://cseweb.ucsd.edu/~sjb/classes/matlab/matlab.intro.html>
2. You will need to become familiar with Matlab's image processing toolbox. Complete the two tutorials in the Getting Started section.  
The full documentation for the toolbox can be found here:  
<http://www.mathworks.com/help/images/index.html>
3. For those interested in more optimized and feature rich image processing and computer vision, see the standard research library OpenCV. A short tutorial is provided here:  
[http://www.ee.unlv.edu/~b1morris/labs/opencv\\_intro/opencv\\_intro.html](http://www.ee.unlv.edu/~b1morris/labs/opencv_intro/opencv_intro.html)
