Conference Publications before being at UNLV

The contents of this package is a complete set of conference papers that I have published in the period 1999-2002 before my arrival at UNLV.

Contents

“On the Complexity of Buffer Allocation in Message Passing Systems”
A. Brodsky, J. B. Pedersen and A. Wagner in
Proceedings of Communicating Process Architectures 2002 (CPA’02), Reading, United Kingdom, September 2002, pp. 57-75.

“Parallel Model Simplification of Very Large Polygonal Meshes”
D. Brodsky and J. B. Pedersen in
Proceedings of the International Conference on Parallel and Distributed Processing Techniques and Applications (PDPTA’02), Las Vegas, Nevada, June 24-27, 2002. pp. 1207-1215.

“Protocol Verification in Millipede”
J. B. Pedersen and A. Wagner in

“Compiling, assembling and Executing Java using Java — Compiler construction using Java”
J. B. Pedersen and A. Wagner in

“Correcting Errors in Message Passing Systems”
J. B. Pedersen and A. Wagner in
Proceedings of the 6th International Workshop on High Level Parallel Programming Models and Supportive Environments (HIPS’01), San Francisco, California, April, 2001, pp. 122-137.

“Sequential Debugging of Parallel Message Passing Programs”
J. B. Pedersen and A. Wagner in

“PVMbuilder – A Tool for Parallel Programming”
J. B. Pedersen and A. Wagner in
